READY TO ELEVATE YOUR LEARNING AND DEVELOPMENT?

Trusted by

We have the FLM and MLM Module Suites and they have gone down brilliantly with my team of FLM's, they enjoy the range of subjects and ease of use and being able to pick and choose subjects that interest them.

The Leadership Gap That's Costing You Millions. And The Training That Can Help You Close It.

Poor management is costing UK businesses £84 billion a year.

Low productivity. High turnover. Poor service. Burnt-out teams. The leadership gap is real. And it's expensive. (OECD)

But the fix isn't a one-off workshop or outdated content hidden behind per-user fees.

Learn to Lead gives your managers the real skills they need, with ILM-accredited foundations, interactive delivery (SCORM), and flat-rate pricing that puts you in control. It's accessible, practical, proven training, ready to roll out at scale.

Online Management Training Modules

In-depth and interactive

Built on ILM-accredited content, these 50+ modules go deep on the real skills every manager needs. From effective delegation to leading change. Designed to be interactive, engaging, and ready for use straight out the box.

Flexible for personalised pathways

Mix and match topics to create learning journeys that fit your people, not the other way around. Whether they're new to leadership or levelling up, it's all in your hands.

Unlimited use

No limits. No licenses. No per-user pricing. Use the modules as many times as you like, with as many people as you like. Total access, every time.

Easy implementation

Delivered in SCORM format, ready to plug into your LMS or internal platform. No tech headaches. No delays.

Simple pricing

One flat rate. No hidden fees. No upgrade traps. Just powerful training at a price that makes sense.

Our Mission

So that everyone gets the training they deserve, not just what they can afford.

We're not a training provider. We're a **REVOLUTION.**

At Peritus, we're rebuilding e-learning from the ground up. Because the old way just doesn't cut it anymore. Per-user pricing, restrictive bundles, sky-high content fees... they've been holding businesses back for too long.

We didn't set out to play their game. We set out to change it.

What really drew us was the fun way in which the compliance courses were delivered and the fact Peritus seem to be the only provider to offer an unlimited use pricing model, so we could use the courses to train everyone for one low cost fee, including our volunteers.
