

TESTIMONIAL

"I worked with Hari to prepare my keynote speech for Transform, the massive innovation and technology conference Siemens run every 2 years in Manchester. Hari and I met several times virtually to work on the content and delivery of the speech as well as a few practise sessions in the venue itself. She's really easy to work with, I enjoyed these sessions and learned some new insights.

"As Siemens UK CEO I'm used to giving speeches – I do it all the time. As I consider myself pretty adept at this I was surprised when the coaching sessions with Hari worked as well as they did. But there's always something that can be improved – even when you've done as much public speaking as I have. Hari identified a few areas to work on and with her support I was able to deliver a brilliant speech to great feedback from my colleagues and peers."

TESTIMONIAL

"I recently completed the 6 week Storytelling course with Hari, it was well structured and covered all aspects of storytelling including making data memorable, presentation skills and story planning. The small group size meant we all got an opportunity to collaborate and learn from each other but also plenty of personalised feedback and advice."

"Hari was humorous but takes storytelling and presentations seriously, she shared tons of personal experience and was incredibly well prepared for each session. An excellent tutor!"

TESTIMONIAL

"I really enjoyed the day. I think [13 Times] did an excellent job of finding balance between creative... without becoming too wishy washy or detached. I have attended activities in past which were pleasant but I didn't find useful or truly related to work I was doing. If it's too blue sky, then it becomes unrealistic and risks feeling like a waste of time.

This was not like that, suspect in part this was also due to excellent upfront planning. But would definitely like to thank them and would recommend them to others"

TESTIMONIAL

"Hari's storytelling lessons were very insightful, practical, hands-on and fun and engaging. Through various creative tasks, I was able to see straight away how her frameworks and tips could be turned into compelling stories."

"As a coach, she is always positive, energetic, and humorous. It was a weekly evening class series on Mondays, but with Hari, it feels like having a pint at the pub because she made the learning process feels so chill and easy."

"I would recommend her to anyone who is keen to learn storytelling but is daunted by anything dry and boring - those words don't exist in the world of Hari!"

TESTIMONIAL

"I would certainly recommend this to colleagues to explore ideas and areas, think it was a fun and creative way to think about ideas in a different way. And remember the work due to the kinetic nature of building.

I think nature of Lego really lends itself to this sort of exploration"
